Want2Remember Snapshots

CS3338 Group 3: Joshua Hanscom, Nicholas Montales, Jessie Guijosa, Perla Reyes

9 December 2024

1   Snapshot Objectives

Objective: Our main objective is to develop a product that will support the performance of our user's short-term memory.capabilities.
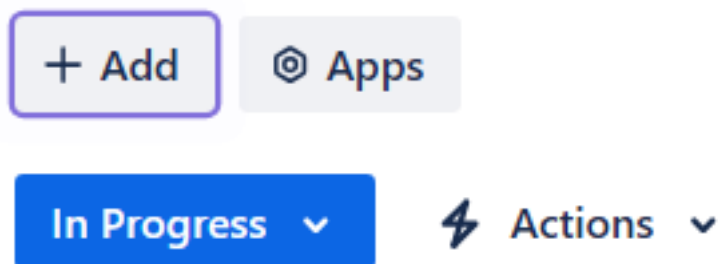

1.1   Snapshot 1

Delegation: Initial feature to be completed: **Home Page**
Dependencies:

- JavaScript

- ReactJS

- GitHub

- JIRA and Agile Development Technology

- Firebase

Memory Home Page - Feature (1)

+ Add   ◎ Apps

In Progress ⌄   ⚡ Actions ⌄

Description

The home page shall allow the user to view, search, filter, and edit memories. Additionally, the user shall be able to navigate the interface intuitively.

Projects / Group3Final

GROUP PI Increment 24.1
Develop Home Page
